Measure Description	
<p>To qualify for a Fall River Electric thermostat rebate, the member must replace bi-metal line-voltage thermostats in an existing single-family home with electric resistance zonal heat(baseboards or wall heaters) with line-voltage electronics thermostats.</p> <p><u>Requirements and Specifications of the Thermostat:</u></p> <ul style="list-style-type: none"> • Have a digital display • Be electronically line-voltage type • Have a thermistor temperature sensing element that is accurate to within 1.5° or better • Be UL or CSA listed for use with their application (i.e. fan-forced, baseboard, wall or ceiling radiant) • Programmable thermostats must maintain temperature and program settings during power failures, and also have a temporary override feature • Have an itemized invoice showing: manufacturer, model number, type, size, quantity, order/purchase date and cost <p>Fall River Electric's rebate will be paid only if the qualifying thermostat(s) and application for the rebate is submitted within 3 month of the purchase date.</p>	<p>Per Unit \$15.00</p> <div style="border: 1px solid black; width: 50px; height: 30px; margin: 0 auto;"></div> <p>Quantity</p>
<p>Installed Date: _____</p>	<p>Total Incentive _____</p>

I certify that the thermostats(s) purchased has been installed in Fall River's service territory. I understand that my purchase must qualify under program guidelines listed above to be eligible for this rebate. Rebate amount(s) and measure(s) are subject to change. Processing of thermostats rebate may take 45 days & will be denied if the thermostats is not filled out with necessary information. I will allow a representative of Fall River Electric to verify installation.
