

# Ductless and Ducted Mini-Split Heat Pump (DHP)

All sections must be filled out by the installer at the time of installation. A copy of this completed form and the purchase receipt or invoice must be promptly submitted to Fall River Electric.

All systems must:

1. Be listed on [BPA's DHP Qualified Product List](#).
2. Be installed according to the [Best Practices for Installing Ductless Heat Pumps Guide](#).
3. Be installed in accordance with manufacturer specifications, including adherence to proper refrigerant charging.
4. Meet Fall River Electric requirements.

What is Being Installed? <i>(Select One)</i>	Eligible Home Types <i>(Select One)</i>	Eligible Existing Heating System Being Replaced <i>(Select One)</i>
<input type="checkbox"/> Single Ductless Indoor Head <input type="checkbox"/> Single Ducted Mini-Split <sup>1</sup> <input type="checkbox"/> Multiple Ductless Indoor Heads <input type="checkbox"/> Multiple Indoor Ducted Mini-Splits <sup>1</sup> <b>Combination Ductless/Ducted Mini-Splits</b>	<input type="checkbox"/> Existing Single Family <input type="checkbox"/> Existing Manufactured <input type="checkbox"/> New Manufactured <input type="checkbox"/> New Single Family	<input type="checkbox"/> Electric Forced Air Furnace  <input type="checkbox"/> Electric Zonal <sup>2</sup>
<b>11.0 HSPF or greater Ductless Heat Pump Upgrade</b>	<input type="checkbox"/> Existing Single Family <input type="checkbox"/> Existing Manufactured	Ductless Heat Pump

<sup>1</sup> A whole-home centrally ducted system may be reported as a ductless heat pump if it is on the Ductless Heat Pump Qualified Products List. If all applicable Implementation Manual requirements are met for the Air Source Heat Pump measures, with or without PTCS, these systems are eligible for reporting as such.

<sup>2</sup> Zonal heating includes electric, non-ducted: Ceiling cable, wall, baseboard, plug-in, and an electric boiler/water heater attached to a hydronic floor heating system.

Measure Category-Precondition	Rebate
Existing single-family homes: Zonal electric heat or Electric forced-air furnace	\$900.00
Existing manufactured homes: Zonal electric heat or forced-air furnace (including new manufactured homes once on site for occupancy)	\$900.00
New single-family homes	\$900.00
Upgrade: Existing single-family and manufactured homes	\$200.00

**Addition information for Qualifying equipment/Installation requirements:**

- Heating seasonal performance factor (HSPF): DHPs or Ducted Mini-Split must be a split-system heat pump employing an inverter-driven outdoor compressor, with inverter or variable-speed blower, rated with a minimum of **9.0 HSPF**.
- DHPs must be installed on a dedicated electrical circuit, according to manufacturer's specifications.
- Only one DHP may be claimed per home, regardless of the number of outdoor or indoor units installed, and regardless of the home's square footage. For homes 4,500 sq. ft or larger, the home is also eligible for a PTCS or non-PTCS air source heat pump (ASHP) incentive.
- At the time Variable Refrigerant Flow (VFR) technologies (also known as VRV) do not qualify for the residential DHP measure.
- Mini-splits with a multi-position ducted indoor air handler should be invoiced as an air source heat pump even when the air handler and ductless heads are served by the same outdoor compressor.
