Email	Installed date		

To qualify for a Communicating Line-Voltage Thermostat rebate from Fall River Electric, the member must replace bi-metal line-voltage thermostats in an existing electric zonal heated home (This includes radiant ceiling cable, baseboard, wall, or fan-forced wall heaters).

Requirements and Specifications of the Thermostat:

- Be Wi-Fi enable (or via bridge) with remote access using a mobile device or computer
- Be informed by an outdoor air temperature sensor or internet weather data
- Are not "Bi-Metal," or are not "Mechanical" or "Mechanical Switching" or do not have a "Mechanical" temperature sensing element
- Have a digital display
- Have 7-day programmable scheduling
- A temperature sensing element that is accurate to within 1.5° or better
- Be UL or CSA listed for use with application (fan-forced, baseboard, wall, or ceiling heat)
- Have a thermistor temperature sensing element
- Provide Fall River Electric with a copy of the installed thermostat(s) invoice, showing manufacturer and model number.

NEW EQUIPMENT INFORMATION

Quantity	Manufacturer	Model #	Member Rebate \$25.00 Per unit	Total Rebate

Purchases must be made after 10/1/2021 and installed in FRE service territory to be eligible. All incentives are subject to availability and may change at any time. FRE reserves the right to inspect for program compliance. By signing, the Member certifies that the above information is true and accurate to the best of their knowledge.
