Fall River Electric offers an incentive when you replace a tank heated with an electrically resistive element with a freeze-resistant tank/fountain. Electric-resistance stock water tank heaters must be removed or permanently disabled. The efficient case is zero electric heating.

Requirements and Specifications:

The new freeze-resistant stock water tanks/ fountains must meet all the following qualifications:

- New (not home or kit made)
- Enclosed, fully foam or dead airspace insulated, with the opening completely sealed.
- Contain no electric heat.
- Possess a minimum one-year manufacturer defect warranty.

Documentation Requirements

- Proof of manufacturer defect warranty of at least 1 year.
- Equipment or contractor invoice include manufacturer, model number, type or size of equipment or product installed, quantity, purchase dated and cost.

NEW EQUIPMENT INFORMATION

Manufacturer	Model #	Quantity	Member Rebate
			\$150.00 per tank/fountain

Purchases must be made after 10/1/2023 and installed in FRE service territory to be eligible. All incentives are subject to availability and may change at any time. FRE reserves the right to inspect for program compliance. By signing, the Member certifies that the above information is true and accurate to the best of their knowledge.
