# How to Read Your Fall River Electric Billing Statement

- 1 Account Number:** This is unique to your location and meter. Have this number ready when you call us with billing questions.
- 2 Meter Number:** This number is unique to the meter on your residence or business for this statement, and it may change if needed.
- 3 Service Address:** Here is the physical address for the location of your electric service with street name and number as it is shown on our system. If this information is incorrect, please notify us immediately.
- 4 Service:** This indicates the dates or time period that your statement covers.
- 5 KWH:** This indicates the total number of kilowatt hours used during the service period shown.
- 6 \$ Amount:** This is the total dollar amount for all the kilowatt hours you used during this billing period.
- 7 Access Fee\*:** The Access Fee is charged each month. The fee covers a portion of the costs Fall River incurs to build and maintain the system that carries the electricity to your home or business. The costs include transmission lines, substations, power line improvements, maintenance and repair, billing, accounting, the payment of loans and other member services.
- 8 Penalty:** If your bill is past due, you will be charged a 1.5% late fee on your past due balance.
- 9 Current Bill:** This is the amount you owe for current usage and the date your bill is due.
- 10 Previous Balance:** If you have not paid your previous balance, this is the amount due from our prior billing.
- 11 Payment(s):** This is the amount we received your last payment.
- 12 Total Due:** This is the total due at the present time which includes KWH use, line & system fee, past due amount if applicable, all of which provides the total amount you owe.
- 13 Due Date:** Payment is due by this date and if not received by that date, a late penalty will be assessed.
- 14 Demand\*:** The largest amount of power a residence/business uses at any point in time within the billing period.
- 15 KW Charge:** The amount charged per KW of demand.
- 16 Demand Billed:** Total amount billed for demand for the billing period.

| PREVIOUS BILLING PERIOD |              |           |              |              |
| SAME PERIOD LAST YEAR   |              |           |              |              |

\*The Access Fee is charged each month. The fee covers a portion of the costs Fall River incurs to build and maintain the system that carries the electricity to your home or business. The costs include transmission lines, substations, power line improvements, maintenance and repair, billing, accounting, the payment of loans and other member services.

\*The Demand charge is the largest amount of power a residence/business uses at any point in time within a billing period. Higher demand results in increased power and infrastructure costs. The Demand charge helps align member billing with the cooperative's cost for demand. These fees ensure all members pay their fair share of infrastructure and power costs.
